Happy New Year from RISE Adventures!

January-February Programs

SIGN UP NOW for the American Canoe Association's "Adaptive Paddling Workshop", February 13-14th, 2010. The program is for able body and physically challenged participants held indoors in a heated pool. The two-day program is designed for the "instructors" or program facilitators to gain a better understanding of the best practices, programmatic elements and details of developing appropriate equipment and teaching method adaptations on day-one. Day-two is designed for practical application of the first day with the addition of students with disabilities learning the paddling component. Physically challenged persons are encouraged to attend day two only unless they want to become instructors. The course fee, manual, and insurance are free to RISE Participants.
